## WITNESS LIST

1. Floyd Womble-Animal Control Supervisor(retired)  
5724 LadyBank Ct.  
Las Vegas, NV 89110  
702-453-2541

Mr. Womble was the Sr. Animal Control Supervisor (over 30 years) who has first hand knowledge of the violations committed by the Animal Foundation. Just before his retirement he complained to the management of Detention and Enforcement about the issues with the Animal Foundation.

2. Richard Molinari-Animal Control Supervisor  
7641 Curiosity Ave  
Las Vegas, NV  
702-321-2650

Mr. Molinari was an Animal Control Officer who has first hand knowledge of the violations committed by the Animal Foundation. Mr. Molinari provided me with most of the evidence that was submitted to him by Animal Foundation staff.

3. Harold Vosko  
Heaven can Wait Animal Society  
62 Innisbrook Ave.  
Las Vegas, NV 89113  
702-595-1036

I worked with Mr. Vosko to help provide Pet Fairs aimed at providing free vaccines and low cost spay and neutering to low income populations. Mr. Vosko complained to me that prior to my arrival none of the animal care and sheltering entities wanted to work together to help reduce the animal overpopulation. I attempted to change that.

4. Dr. David Henderson  
Sunrise Veterinary Clinic  
417 N. Eastern Ave.  
Las Vegas, NV 89101  
702-382-4671

Dr. Henderson, as shown in the Channel 13 Investigation video (Video 1-Animal Foundation Investigation-CD-News Media Investigation video) complained about aggressive animals being adopted back out to the public.

5. Dr. Amy Mitchell  
[snoopysmd@aol.com](mailto:snoopysmd@aol.com)

Dr. Mitchell was employed as a Veterinarian with the Animal Foundation. She is one of two Veterinarians who complained to the City regarding violations of municipal code, the contract between the city and the Animal Foundation and state statute. She was subsequently terminated after she filed her complaint.

6. Dr. Diane M. Balle Jr.  
6977 Eldora Ave  
Las Vegas, NV 89117  
702-871-2771

Dr. Balle was employed as a Veterinarian with the Animal Foundation. She is one of two Veterinarians who complained to the City regarding violations of municipal code, the contract between the city and the Animal Foundation and state statute. She was subsequently terminated after she filed her complaint.

August 29, 2011

Executive Director  
Nevada Commission on Ethics  
704 W. Nye Lane, Suite 204  
Carson City, Nevada 89703

Dear Executive Director,

I am writing this letter to respectfully request a third party complaint opinion pursuant to NRS 281A Ethics in Government. I am submitting this complaint based on a series of unethical events which occurred on September 2, 2009 and thereon. This date should suffice as being within the 2 year statute of limitations as provided by NRS 281A.280.

I am filing this complaint against Betsy Fretwell, City Manager for the city of Las Vegas (hereinafter "Betsy"). The complaint surrounds the following issues:

**1. Suppressing information for pecuniary interests**

**Issue:** Betsy's personal and financial relationships with Christine Robinson, Executive Director of Lied Animal Shelter (hereinafter "Christine") has rendered her incapable of making objective and unbiased decisions regarding adherence to city contracts, protocols and local ordinances.

**Summary/Evidence**

Let me preface this document by stating that there is a culture at the city of Las Vegas which acts to protect the existing power structure and which seeks to stamp out any perceived threats against its existence, sometimes at the expense of city taxpayers. I can vividly remember my first day of employment at the city of Las Vegas where I got the first glimpse of this structure and how the supporters of this structure deliver clear messages that this structure will be protected. On October 22, 2001, in a pre-disciplinary meeting that was being held for an employee, I was a Personnel Analyst assisting to conduct the meeting, while Deputy City Attorney Morgan Davis delivered an unprovoked threat to me by saying quote "I can fire you whenever I want to". The only witness to this episode was Brent Profaizer, Manager of Employee Relations who is now retired. It was obvious that Morgan Davis felt comfortable enough to make a statement as such and knew that any threats to the existing power structure would be stamped out. Almost, ten years later, I haven't been disappointed.

On my first day of employment after taking the Manager position in the Department of Detention and Enforcement, I met with Chief Karen Coyne (hereinafter "Karen") in her office. On her desk in a frame was a personal picture of Betsy. This again was a clear indicator that she had a very close and personal relationship with Betsy and that she was a part of the "in group".

After a six (6) year successful stint working in the Human Resources Department, from December 2007 to October 2009, I took a promotion as a Manager tasked with overseeing the operations of the Animal Control Unit, Parking Enforcement Unit, Crime Analysis and for performing supervisory oversight of other administrative staff. As a part of my responsibilities I conducted investigations into issues of animal cruelty, vicious animals, and other cases involving violations of Chapter 7 of the city of Las Vegas ordinances and the Nevada Revised Statutes. Prior to taking this position, I worked in the Human Resources Department where, along with many other duties, conducted in-depth investigations into employee misconduct, many in which the City Manager's Office used to make important personnel changes.

On September 2, 2009 I created a document outlining violations committed by the Animal Foundation (attachment 1-CD-Evidence), which is an organization that has contracted with the city of Las Vegas to provide sheltering services for Lied Animal Shelter (attachment 2-CD-Contract and Protocols). The document was created after conducting a thorough investigation into whistleblowing allegations of animal cruelty lodged by Lied Animal Shelter staff, which included experienced, degreed and licensed Veterinarians Dr. Balle and Dr. Amy Mitchell, (attachment 3 and attachment 4-CD-Evidence) and trained and experienced city of Las Vegas Animal Control staff (attachment 5-CD-Evidence). The information provided by Lied Staff and city of Las Vegas Animal Control staff included but not limited to, animals not getting the appropriate medical care, animals being housed in kennel areas where temperatures rose 15 or more degrees above state allowed maximums, aggressive animals being adopted back out to the public, unwarranted animal deaths, not completing an emergency plan within 120 days (attachment 12-CD-Evidence also see "Supporting documentation packet".) all which are violations of local ordinance, state statute and the contract between the two entities. On the same day, this document was submitted to DC Tim Shattler (hereinafter "Tim") and Karen, both POST certified Peace Officers, of the Department of Detention and Enforcement. I informed Tim and Karen that I would be sending the letter to the Animal Foundation on September 2, 2009, pursuant to violation language included in the contract between the city of Las Vegas and the Animal Foundation (attachment 6-CD-Evidence). Previously on July 10, 2008, I had created a

similar document which caused a lot of consternation with Christine and city of Las Vegas leadership, because there was now an actual written public document showing that the shelter was not in compliance (Attachment 7 & 8-CD-Evidence). A reply email was sent by Tim stating that the letter needed to go through Karen prior to being sent out (attachment 6-CD-Evidence). Because I had not gotten a response from Karen or Tim, within a reasonable amount of time, especially for such critical issues, on September 9, 2009 I sent an email to Tim requesting an update on the status of the letter (attachment 9-CD-Evidence). Compared to the time it took to receive responses from Karen and Tim when dealing with other cases of animal cruelty, it was clear that these two individuals were not going to handle this case as other cases have been handled in the past. Based on normal Animal Control operating procedures and practices, I inquired of Tim and Karen about the Animal Control unit being able to write citations for violations witnessed at the Animal Shelter (attachment 10-CD-Evidence). I didn't receive a reply. As a comparator, the Animal Control Unit receives 35,000 calls for service/year of which many result in citations for violations of local ordinances and state statutes. Understanding and knowing that animals at the shelter were not getting the care that they needed, I was stressed that the city was not handling the investigation in an expeditious manner nor holding the Animal Foundation accountable (attachment 12-CD-Evidence). In comparison, as soon as the city started receiving complaints from the public in 2009 about the treatment of animals at the Las Vegas Zoo, the Department of Detention and Enforcement worked fastidiously to investigate and report back to the City Manager's Office and the Mayor's office within a week or so of notification (Video 7 & 8-CD-News Media Investigation video). The Animal Control Unit conducts investigations of animal cruelty and other violations of local ordinance and state statutes on a frequent basis and citations are written for these violations. It was clear, because of the lack of response from Tim and Karen that the Animal Foundation was receiving preferential treatment and was being handled differently than the general public or other organizations that have been alleged or found to have violated animal cruelty laws. It was clear that either Tim or Karen were having side conversations with Chris Robinson because she and Jason Smith, Director of Operations at Lied, were aware of a media inquiry that only 3-4 city of Las Vegas employees knew about. This list included me, Tim, Karen, and one Animal Control Supervisor, Floyd Womble. (attachment 11-CD-Evidence).

Due to the severity of the animal cruelty violations it was imperative that the city moved quickly in order to resolve the violations. Over two weeks had passed since the September 2

letter was written and a response still had not been received from Karen or Tim on the violations outlined in the document. After two weeks and counter to what the Department of Detention does for the public and for other entities found to have violated local ordinance and statute, Tim wanted to take a "walk through" of the shelter to "see" some of the violations that had already been substantiated by anecdotal, direct and documentary evidence and which were written in my September 2 document. On or about September 16, 2009, Tim and I did a walk-through of the shelter. I pointed out many of the violations that we had already investigated and documented. Counter to what the contract language states and how the public and other entities are treated who have been found to have violated local ordinance/statute, Tim as a POST certified Peace Officer, did not enforce the law or the contract and only verbally expressed to Christine that some items needed "fixing".

Because of the close personal relationship between Karen and Betsy, it is well beyond reasonable, to think that Karen made Betsy aware of the violations uncovered by our investigation. It is also well beyond reasonable to think that Christine, Betsy's domestic partner, made Betsy (attachment 13 & 14-CD-Evidence) aware of the investigation being conducted by the city of Las Vegas Animal Control. I am sure that public communication records such as emails and telephone records will support this fact. Betsy, as the Chief Administrative Officer of the City did absolutely nothing nor inquired, to ensure the contract between the city of Las Vegas and the Animal Foundation was enforced and that city ordinances and statutes were enforced. During this period, local news media had already carried stories of shelter violations, making the general public and city officials aware. Two of the shelter staff Dr. Amy Mitchell and Dr. Balle, who had complained of animal cruelty at Lied Animal Shelter, were subsequently terminated, in October 2009, shortly after I conducted my investigation (video 1 & 2-CD-News Media Investigation video). Lied Animal Shelter employment records will show that these two individuals were exceptional employees.

Even after my termination, I received notification through my attorney, that Morgan Davis requested the documents that had been given to me, by Animal Foundation staff and city of Las Vegas Animal Control. This request alone substantiates the fact that the city knew that there were violations and this was their attempt to cover up the violations. A Channel 13 investigation showed both Chris and Jason stating that they had never seen the September 2, 2009 write up that I created (video 1 & 2-CD-News Media Investigation video). This is because the city never produced the document or actually investigated the violations.

As outlined in the City Charter for the city of Las Vegas, the City Manager, as the Chief Administrative Officer of the City, has the final authority to ensure that all contracts with the city are faithfully kept and that all general laws and ordinances of the City are observed and enforced. Below is an excerpt from the City Charter outlining Betsy's responsibilities as:

*Sec. 3.030 City Manager: Appointment; duties; salary. The City Council shall appoint a City Manager as the Chief Administrative Officer of the City, and fix his salary. The City Manager is responsible to the City Council for the efficient and proper administration of all of the affairs of the City. In this connection, he shall:*

- 1. Exercise careful supervision of the City's general affairs.*
- 2. Exercise control over all of the departments and divisions of City government and over all of the officers and employees of the City.*
- 3. From time to time, give to the City Council information in writing concerning the state of the City and recommend to the City Council the adoption of such measures, bills and programs as he deems are necessary, appropriate, expedient or beneficial to the City.*
- 4. Cause to be prepared and submit to the City Council the annual budget of the City.*
- 5. See that all general laws and ordinances of the City are observed and enforced.*
- 6. See that all contracts of the City are faithfully kept and fully performed and, to that end and in any case in which it is necessary or appropriate in order to protect the interests of the City, must, with the approval of the City Council, cause legal proceedings to be instituted or defended at the expense of the City.*
- 7. Execute those contracts and other documents the execution of which is delegated, either specifically or generally, to him by the City Council.*
- 8. Perform such other administrative duties as are designated by the City Council or as may be prescribed by ordinance.*
- 9. Have no other employment.*

Betsy knew that if she had enforced the contract between the city of Las Vegas and the Animal Foundation and if she had actually held the Animal Foundation accountable for the violations committed by the Animal Foundation that her personal and financial relationship with Christine Robinson would be in jeopardy. Personal because they are domestic partners and financial because they both share living expenses and actually own property together. The Animal Foundation received preferential treatment as a result of the personal relationships between Betsy, Christine, Karen and Tim. After a 4 month investigation conducted by Darcy Spears of Channel 13, the city still had not investigated or made attempts to ensure that the public's interests were protected and that the animals at Lied were getting the care that they deserved. However, the city did take it upon itself to conduct a so called "investigation" in October 2007, only after over one thousand (1,000) animals had to be euthanized. This investigation concluded that they couldn't find any criminal intent which was absolute gibberish in the fact that intent is not needed in cases of negligence. If an animal shelter has to kill over 1,000

animals, it is because the people who were in charge of operating the facility did not follow city ordinances and state statutes. If they had given the animals proper care they wouldn't have to kill all of those animals. Not to sound like an extremist, but if the 1,000 animals were 1,000 people many would have gone to jail, due to negligence, manslaughter or some other crime.

## **2. Improperly influencing subordinates**

**Issue:** Betsy's personal relationship with Christine improperly influenced and prevented Deputy City Manager Orlando Sanchez from investigating law and protocol violations committed by Animal Foundation staff and from enforcing the contract between the two entities.

**Evidence:**

As attachment 17 (CD-Evidence), shows Orlando, on paper, was responsible for overseeing the Department of Detention and Enforcement. Unfortunately, because of the close personal relationship between Betsy and Karen, he only retains the title of Deputy City Manager as a symbolic and culturally sensitive gesture and has absolutely no authority over the Department.

When I initially wrote-up the Animal Foundation in July 2008 for violations of the contract Orlando signed and supported my effort to hold the Animal Foundation accountable. After this event, it was apparent that Orlando distanced himself from the overwhelming problems and issues at the shelter as his presence with the Department of Detention and Enforcement diminished drastically. I used to have frequent communications with Orlando, but those conversations subsided as I was threatened by Tim and Karen that all my communications with the City Manager's Office had to go through them first. This was a strange request since no other managers had this same stipulation placed on them.

When I met with Deputy City Manager Orlando Sanchez in October 2009 to discuss my pending termination and the violations committed by the Animal Foundation it was clear that he did not want to investigate or get involved with the problems at the shelter, even though it was his job to do so. Instead of requesting additional information concerning the shelter he became physically uneasy during the meeting and did not want to talk about my pending termination. Orlando's only response was that I needed to speak with Betsy. This was a strange request as he supposedly had authority over the department. As stated in a city of Las Vegas policy, an appointive employee can request a meeting with the City Manager's Office to appeal a pending disciplinary issue. Albeit, I was never informed at that time, why I was being let go, I determined that there was a clear nexus between my termination and the investigation that I had conducted on the Animal Foundation. His request of me was a clear indicator that he did not want to put his neck on the line and wanted to push the issue to his boss. Considering

my eight year employment at the city of Las Vegas and the exemplary service that I provided to the city, it was against all reason as to why I was being let go. All of my evaluations were exemplary and my employment record speaks for itself (attachment Attachments 18-22-Performance Eval-CD-Evidence).

When I did speak to Betsy I had asked Betsy to transfer to a different department. She replied that she could not approve such a transfer because I had worked in the Human Resources Department, albeit, 2 years ago before my tenure at the Department of Detention and Enforcement. Although used discriminately, this is a standard reply that is used by the City Manager's Office to pick and choose who they want to allow to transfer to other departments. There is no policy which supports such a response especially when there have been people who have been caught stealing, drinking and driving and other significant law violations who have been able to keep their jobs or transfer to other departments; all whose employment records were not as exemplary as mine. This was personal for Betsy. When I did work in the Human Resources Department, there was no objection lodged by the City Manager's Office against me transferring to Detention and Enforcement. I actually received strong praise from the City Manager's Office for my transfer to Detention and Enforcement. Other employees were allowed to transfer from the Human Resources Department and back into the Human Resources Department with no protest from Human Resources or the City Manager's Office. It was clear to me that due to Betsy, Christine and Karen's personal relationships and the fact that I attempted to hold the Animal Foundation accountable, Betsy would not allow me to continue employment with the city of Las Vegas and was certainly not going to let Orlando Sanchez overrule Karen.

**Conflicts of interest/ Appearance of Impropriety/ Public Duty/ Incompatibility/ Personal interest in public contracts**

**3.**

**Issue:**

- a. There was a clear conflict of interest between Betsy Fretwell's personal interest as the City Manager and her duty to carry out and enforce the contract between the city of Las Vegas and the Animal Foundation and to ensure that city ordinances are enforced.

**Evidence:**

Information contained in Section 1 of this document substantiates the allegation that Betsy did absolutely nothing to enforce the contract between the city of Las Vegas and the Animal Foundation or to ensure that city ordinances were complied with.

**Issue:**

- b. There was a clear conflict of interest between Betsy Fretwell's personal interest and what was in the best interest of the city of Las Vegas.

**Evidence:**

Because of Betsy's lack of enforcement of the contract, the city of Las Vegas lost no less than \$25,000 to \$55,000 in lost fines and penalties under Title 7 of the Municipal Code and under Article II of the contract between the Animal Foundation and the city of Las Vegas. Under the contract, the Animal Foundation had 48 hours to cure any violations of the contract or else penalties could be assessed. Many if not all of the violations outlined in my September 2 document had not been corrected which would have started the penalty phase from September 4, 2009, 48 hours after the notice of violation was written, until my last day of employment at the city of Las Vegas, October 22, 2009, and thereon.

In addition, it was clearly not in the best interest of the public to have aggressive animals being adopted back out to the public even when city of Las Vegas Animal Control requested that the Animal Foundation improve their behavioral assessment process. It was also clearly not in the best interest of the city that animals did not get the necessary medical care as established by protocols, ordinance and state statute. But it was in Betsy's best and personal interest to ensure these issues were suppressed.

**Issue:**

- a. My termination which occurred in October 2009 was in retaliation for finding the Animal Foundation non-compliant with the contract between the city of Las Vegas, city ordinances and state statute and was not in the best interest of the city of Las Vegas.

**Evidence:**

The following represents some, not all of my accomplishments during my tenure at the city of Las Vegas;

- Single handedly spearheaded the Diversity Initiative for the city of Las Vegas.
  - Resulted in an award with the Southern Nevada Human Resources Association.
  - Resulted in an award with the National League of Cities.
  - Both awards resulted in positive media coverage for the city
  - Diversity Initiative was a positive cultural change
- Negotiated, planned and got Perseus (\$25k Enterprise Information Management Software System) installed at the city of Las Vegas.
  - This system allowed the City Manager's Office and Department Directors the ability to gain better management insight through survey's

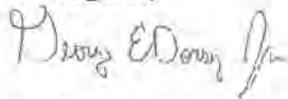

and other information gathering tools which were used throughout the entire organization.

- This system was used before and after the launch of the Diversity Initiative which allowed city management to create a baseline of organizational culture, of which to make strategic cultural change.
- Investigated numerous employee complaints and investigations into employee misconduct which resulted in positive outcomes for the city.
- Received employee of the month award.
- Was asked to represent the city as the Master of Ceremonies for the Southern Nevada Human Resource Association, Diversity Luncheon.
- Uncovered the fact that the city was being mistakenly being billed over \$200,000 during Animal Foundation contract negotiations with Clark County, Animal Foundation and North Las Vegas.
- Planned, implemented and managed a new pet licensing program for the city which resulted in hundreds of thousands of dollars in revenue.
- Created vehicle sign out sheets for both Animal Control and Parking Enforcement to ensure city equipment was operational and safe.
- Reduced overtime and sick leave usage in both Animal Control and Parking Enforcement by targeting overtime and sick leave abusers.
- Planned, implemented and managed free spay/neuter and vaccine events in collaboration with the Animal Foundation, Heaven can Wait, local veterinarians and PIMA. These events targeted low income communities and were aimed at reducing the pet overpopulation (attachment 23-24-Pet Fair-CD-Evidence).
- Drafted and wrote the current Spay and Neuter ordinance (Chapter 7.14) that is being used today (attachment 25-city of Las Vegas Municipal code-CD-Ordinances and Statutes).
- Implemented organizational and operational changes to the Animal Control unit. As a result of these changes, wrote and submitted a package for the 2009 National Animal Control Award. The Animal Control Unit won the award, a first in the Animal Control's 50 year history and a Mayoral proclamation. (Video 9-CD-News Median investigation video & )(attachments attachment 26, 27, 28-CD-Evidence).

- Received several promotions stemming from Personnel Analyst, Sr. Personnel Analyst to Administrative Officer.
- Received numerous emails from the city Manager's Office, Department Directors and employees for taking on the position of Administrative Officer overseeing Parking Enforcement, Animal Control and Crime Analysis.
- I even received a card from the city manager's office when my dad passed away in January 2008.

Again this list is not all inclusive but does give an accurate depiction of my performance as an employee. During my tenure at the city of Las Vegas I was an above average employee who spearheaded large initiatives which not only saved the city money but made the entire work environment a much better place to work. Again, all my performance evaluations were exceptional. The citizens of Las Vegas clearly benefitted from my performance and they would have benefitted even more if it had not been for the conflict with Betsy's own personal interest. Again the question is, "So what changed?". What changed was I was viewed as a threat against Betsy's, Karen, Tim, and Christine's careers because I was holding the Animal Foundation accountable. There is a clear nexus between my investigation of the Animal Foundation and my resulting termination. I did not violate any city policies and was clearly trying to do my job. My termination was unwarranted.

Best regards,

George E. Dorsey Jr.

Description: 5-17-09; Dog presented as EUTH REQUEST last pm b/c owners said dog was having seizures. Vetcheck was put on dog b/c staff wanted to adopt, however, no one informed DVM on duty that dog needed exam. Dog was found still in REC this am. Exam reveals open fontanelle, pale mm but moist. BAR. Suspect PSS, hypoglycemia, trauma complicated by open fontanelle, other neuro disease. Dog was allowed by staff incl supervisor (CT per LA) to sit overnight, postponing owner req euth, w/no DVM exam, notification, or care risking continued seizures and suffering of pet with no monitoring. am

Candice postponed euth because she decided the dog was just dreaming + didn't have seizures. No one even informed the DVM on staff that dog was here / to die. !

Memo Text:

6-4-09; Dog has been displaying SEVERE anxiety and behavioral disorder x 5 days worsening each day. Dog initially began as 'tail chaser' now obsessive w/behavior to extent that tail now has large hemorrhagic lesion and bite wounds. Behavioral disorder d/t stress, anxiety, central lesion, etc. Dog needs behavioral Tx and medical attention at full service A.H. Ok to mercy euthanize.

6-5-09; Approx 9am this morning I was called to DRD by Clinic supervisor d/t animal self traumatizing tail to extent that dog and surroundings covered in blood. Remembering that this dog was to be euth'd/on euth list yesterday, I went to confirm that this was the same dog. When I arrived at kennel front, found a 6+ feet circumference of blood spattered across kennel door, kennel floor and out onto alley floor. Blood spatters found on kennel doors/fronts of the dogs ACROSS the AISLE to affected dog! Dog still obsessively, erratically chasing and now chewing tail. Puddle of blood in left corner of kennel, SIGNIFICANT amount of blood in kennel, on floor, on walls. Dog allowed to suffer for additional 24 hours because? Went to euth room to have assistant retrieve animal for immediate mercy euthanasia. Dog examined post mortem, dog's fur/coat covered in dried and fresh blood, tip of tail missing approx 3 inches, vertebral body exposed approx 1inch past remaining skin, significant hemorrhage still present. Suspect dog ingested missing tail tip.

behavior'. Michel thought the Vets should not be entering / assessing behavior. The next day - dog chewed off - see pics.

Description: 6-4-09; Dog has been displaying SEVERE anxiety and behavioral disorder x 5 days worsening each day. Dog initially began as 'tail chaser' now obsessive w/behavior to extent that tail now has large hemorrhagic lesion and bite wounds. Behavioral disorder d/t stress, anxiety, central lesion, etc. Dog needs behavioral Tx and medical attention at full service A.H. Ok to mercy euthanize. □ □ 6-5-09; Approx 9am this morning I was called to DRD by Clinic supervisor d/t animal self traumatizing tail to extent that dog and surroundings covered in blood. Remembering that this dog was to be euth'd/on euth list yesterday, I went to confirm that this was the same dog. When I arrived at kennel front, found a 6+ feet circumference of blood spattered across kennel door, kennel floor and out onto alley floor. Blood spatters found on kennel doors/fronts of the dogs ACROSS the AISLE to affected dog! Dog still obsessively, erratically chasing and now chewing tail. Puddle of blood in left corner of kennel, SIGNIFICANT amount of blood in kennel, on floor, on walls. Dog allowed to suffer for additional 24 hours because? Went to euth room to have assistant retrieve animal for immediate mercy euthanasia. Dog examined post mortem, dog's fur/coat covered in dried and fresh blood, tip of tail missing approx 3 inches, vertebral body exposed approx 1inch past remaining skin, significant hemorrhage still present. Suspect dog ingested missing tail tip. am

Pits - 386318  
386314

This dog was killed by 2 pit puppies  
in adoptions. Gary (kennel staff)  
found dead dog in the pit bulls'  
kennel / run.

Pits were immediately put on euth  
list for behavior But - next day  
kennel cards said 'taken off euth'  
(See attached.) + dogs were still in  
E holding. Dr. Mindi + I informed

Jason of situation - he said  
he knew nothing about  
it.

I am curious to know if  
it was Dr. Coppola that  
initiated but we  
never found out who  
took them off the  
euth list.

 6-09; dog presented last pm sick per ACO. Parvo positive test last pm by  
 staf. Mercy authorized asap. Why was the pet not taken to vet? Kennel  
 had intake time after hours but was pet here prior/not processed until  
 after? This is one of 2 dogs brought in after hours (per kennel card) that  
 are parvo positive and sick on intake. I was only DVM here/there was not late  
 staff/short staffed. Pet was allowed to suffer overnight. am  
 memo LISTBOX:

Kenj + Michele were trying to 'sneak' this dog out to rescue:

Dog was added to euth list ('blue dotted') on 7/3. There is no reason why this animal should not have been euthanized on 7/5 @ true out time.

However - Kenji (see memo) had euth postponed to look for rescue w/out approval from medical staff (+ 'blue dot' is not negotiable - they know this)

Dog was only euth'd 7/8 because I added it to the euth list Again. Because the dog was supposed to be euth'd 7/5 - no med/treat put in for 7/5 - 7/8.

Dog Sal  
fix ~ 3d  
no exam  
med  
Amen

Clinic staff alerted me to this  
dog in shelter holding / clinic  
on 7/8. Per clinic staff, dog had  
puppies yesterday (2 died) + her  
condition continued to deteriorate.

On 7/8 exam - dog severely depressed,  
had elevated 3rd eyelids, dehydrated,  
emaciated, poss neurologic. Dog  
should have had exam +/- macy  
before 7/8! Suspected malnutrition,  
Calcium deficiency / eclampsia.  
Dog was medicated 7/8

Cat was on med euth list 7/8.  
Dr. Coppola asked me about this  
cat because she wanted it to go  
to foster. I told her that the  
cat showed signs of disease +  
was exposed to sick cats for 3d  
in the lobby with no med  
attention - foster not an option.  
She got mad + then Jason came  
to me to ask about sick cats.  
Said he agreed, all looked sick

Dog had severe case of  
suspected mange  
(demodectic +/- sarcoptic)  
+/- lice.

Should have been on euth list  
+ euth'd 7/7. However - no  
shelter vet so dog not seen/  
found until 7/8 = suffered 2 days  
with no treatment.  
+ had possible contagions, +/-  
zoonotic disease.

Cat found in CC 7/8  
with severe URI, pneumonia (lower  
resp. tract disease) Cat was  
obtunded, had severe ocular  
trauma / infection causing both  
eyes to be swollen shut. Cat  
was open mouth breathing = struggling  
to breathe + was icteric (not  
eating for days). Cat received no  
exam, treatments, merely euthanasia for  
2 days b/c no shelter vet.
